

Manual Call Point Combo + Sounder

(Addressable & wire Module - MCP + Sounder)

Model: CI-A01-MS

INTRODUCTION

This is a single Module designed to be flush mounted It has a fire. Open and short Indication. The Zone module has own micro controller based detection circuits and has verification for zone alarm built in.

This is a conventional fire Alarm Module with a built in Manual Call point and Sounder. The Special Features of this Product are listed below.

Microprocessor based design Fire Alarm Module Connect With Panel:

- 1) Zone circuit Fault indication for or short circuit on detection loop.
- 2) Alarm LED.
- 3) Com Led (Green) If Led Flash Communication ok.
- 4) Dual Tone Buzzer (Only For Alarm Condition)

Double sided PTH PCB for long life and highest reliability.

OPTIONAL

Fire Fault Isolated contacts for interfacing a conventional zone to an addressable monitor module. Also available only as Zone panel for external MCP, Hooters & detectors.

FEATURE

Is very useful in controlling false alarms from detectors in dirty environment. The Filed version of this module is available foe wall mounting or Din rail mounting. Wall junction boxes can be supplied with or without an MCP+Hooter or Output for Hooter / Relay. All modules come Standard with a monitored zone input and open collector alarm output.

FEATURE

Detectors: Max 30.

MCP: unlimited one provided on panel.

Sounder: Built in.

Main Power Supply: 24v DC.

Fascia: MSPowder coated with double action MCP & Piezo Hooter.

Indications: Comon, Zone flt, & ZoneAlarm

Cabinet: MS1.2mmsheet steel construction.

Cable Entry: Bottom. 14mm knockout.

Color: White.

Housing Construction: Wall Mounting & Flush Mounting
